VOL. XXII, NO. 6,301. MIDDLETOWN, N. Y., SATURDAY, MARCH 27, 1897. 30 CENTS PER MONTH, PRICE 2 CENTS.

MAY BE REWARDED

Gold Democrats' Service in the Last Election Not Forgotten.

FORMAN'S VISIT TO WHITE HOUSE

Believed That He Is To Be Allowed To Retain the Internal Revenue Commissionership—Claude Johnson May Remain, Too.

Washington, March 27.—The visit paid to President McKinley yesterday by Commissioner Forman of the internal revenue bureau has been considered significant in view of statements that he would be allowed to hold his office undisturbed as a recognition of the services of the gold democrats in the late campaign. Mr. Forman ran for governor of Illinois on the Palmer and Buckner ticket, and shortly after the election was appointed to the internal revenue commissionership by President Cleveland. He said after his call on Mr. McKinley that he had no information that he would not be disturbed. Another case where it is said the gold democrats will be rewarded through the retention of one of their number in office, is that of Claude M. Johnson, chief of the bureau of engraving and printing. His position is under the protection of the civil service regulations, but this is not considered as conclusive evidence that he will be allowed to remain. Secretary Carlisle had a talk with President McKinley and Secretary Gage concerning Mr. Johnson. He asked the chief's retention on the grounds that Mr. Johnson's work in the late campaign contributed largely to republican success in Kentucky.

TWO ATTRACTIVE BERTHS.

Professorships of Mathematics Among the Most Alluring in the President's Gift.

Washington, March 27.—Two of the most attractive official positions in the gift of President McKinley to fill existing vacancies are the so-called professorships of mathematics in the navy. These offices are practically life positions. The appointee receives a salary of \$2,400 upon assuming office and which is progressively increased to \$3,500 after fifteen years' length of service. It is also within the power of the secretary to determine the nature of the examination which the candidate shall have to pass. The qualifications are not of the most rigid character, for one of the officers of the corps of mathematics has been a professor of English at the naval academy; another has been professor of drawings; a third is a librarian of the navy department, and another is an electrical expert at the navy department. For many years the professors of mathematics in the navy have been veritable handy men, and it is within the province of the secretary of the navy to prescribe such a fixed examination that he will be able to secure an expert along any special line.

ARBITRATION TREATY.

Senators Losing Interest in the Discussion and Less Time Is Devoted to It.

Washington, March 27.—The debate on the general treaty of arbitration is losing interest among senators, and much less time than formerly is devoted to its consideration. Mr. Gray of Delaware, speaking in opposition to the Chilton amendment, which for three days has been under consideration, said he favored the treaty as negotiated by Mr. Olney, but inasmuch as the committee amendments have been agreed to, he did not think that any further change in the text of the convention was necessary. During the course of the debate yesterday afternoon it was suggested that perhaps it would be best after all to return to the plan suggested by Lord Salisbury and submit to arbitration only matters involving the question of pecuniary damages. This suggestion was declined by Secretary Olney. During the debate in secret session the question of the committee amendments came up. In the discussion the republicans insisted that they must be given a clear majority on every committee or that the elements opposed to the republicans should combine and take the committees themselves. The republicans declared that unless they were given a majority on the committees they would not accept the responsibility for legislation. No conclusion was reached, and the senate adjourned until Monday.

NAVAL DILEMMA.

Trouble with the Contractor Over the Brooklyn Dry Dock.

Washington, March 27.—The navy department is again in a dilemma about the great dry dock just completed at New York, the only one of sufficient dimensions to dock the first-class battleships. Day before yesterday Secretary Long authorized its acceptance by the government subject to a few trifling details of work yet to be done by the contractor. Through some friction between officials and workmen these deficiencies still exist and to complicate the matter the department is not able to secure from the contractor, who still has possession, the necessary permit to prepare the dock for the new battleship Iowa. It is essential that this vessel should be docked at the

earliest possible moment as her official trial trip is set for April 5, and her builders are under penalty for delay. This morning the department had accomplished nothing in its efforts to unravel the snarl.

THE TARIFF DEBATE.

Discussion Under Five-Minute Rule Develops Lively and Heated Content.

Washington, March 27.—The consideration of the tariff bill under the five minute rule for the purpose of amendment, which it was expected would be strictly business, opened with the liveliest political contest of the session, lasting for nearly three hours. It began promptly on the reading of the prefatory paragraph of the bill, to which Mr. Dockery, dem., Mo., offered an amendment, authorizing the secretary of the treasury to admit free of duty any article the production and price of which was controlled by a trust in the United States. Mr. Dingley, rep., Me., chairman of the committee on ways and means, made the point that the amendment was not in order at that place, and Mr. Dalzell, rep., Pa., that if it were in order as to time, congress could not devote on the secretary a judicial duty such as that of determining whether or not a trust was in control of a certain article. This precipitated a debate based on democratic charges that republicans favored trusts and did not want to legislate against them. All of the leaders on both sides and some not recognized in that rank took part. Charges and counter-charges were bandied back and forth, and the record of the past seven years was searched to show the action of both parties on the subject of trusts. After nearly three hours of this skirmishing, the question ostensibly being the point of order, Gen. Henderson, rep., Ia., appealed to both sides to put an end to it, saying that if it was the desire to get through the bill in the time allotted for its consideration "a mighty bad start had been made all around." The point against the amendment was sustained by the chair (Mr. Sherman, rep., N. Y.), and appeal against this ruling was sustained—155 to 104. Many other amendments having the same objects, to put articles controlled by trusts on the free list, were offered, and on objection by Mr. Dingley all were ruled out of order. Mr. Dingley stated that when the time came to deal with trusts the republican party would do so, and that after passing the tariff bill if anything remained to do for the public interest it would attend to that. In the course of the first day's labor several changes of duty were made, among them being an increase of half a cent in the duty on carbonate of ammonia; an increase of from 25 to 40 cents a pound of the duty on sulphuric ether, and increasing the duty on the products of pig lead from 2½ to 3 cents a pound. At 5:15 p. m. the house adjourned until to-day having disposed of nine and one-half of the 163 pages of the bill.

MCKINLEY TO ATTEND.

Will Be Present at the Grant Monument Dedication in New York Next Month.

New York, March 27.—Gen. Horace Porter, who has charge of the arrangements in connection with the Grant memorial celebration, stated last evening that President McKinley had given assurances that he would be present on April 27, the day set for the dedication of the monument, without fail and deliver an address. Gen. Granville M. Dodge, grand marshal of the parade, also received a telegram from Adj. Gen. Fitzgibbon stating that the entire National Guard of the state, or about 13,000 men, would be ordered out. The brigade commanders also inform Gen. Dodge that nine-tenths of their commands will be in line of march. With the detachments from other states an unsurpassed military demonstration is assured. The plans have been formulated for the platforms and grand stands to be erected in the vicinity of the tomb. On the stand nearest the tomb will be President McKinley, the members of the diplomatic corps, the orators of the day, and the most distinguished invited guests. It is from here that the speeches will be made. Facing the presidential stand, and within easy hearing, will be the second and larger stand. Here will be accommodations for congressmen, legislators from the various states and others. Nearby will be the stand for the invited guests. On a bridge, which is to be erected over the eastern driveway of Riverside drive, it is planned to have a chorus of 1,000 voices and a band under the direction of Frank Damrosch. Admiral Buncie has written as follows from the flagship New York to Gen. Dodge: "All the available ships of the naval force under my command will take part in the celebration. I propose to leave here early next month for Hampton Roads, where I shall assemble as many of the ships of the squadron as possible, and I shall sail from there with them on April 19 and reach New York on the following day."

Senator Platt's Eye Not Discolored.

Washington, March 27.—Senator Platt of New York, whose face was slightly cut yesterday by being struck by a door suddenly pushed open by a page as the senator was about to enter the senate chamber, shows but little trace of the accident to-day. His eye is not blacked.

MARKETS ARE FIRM

The Alarming Surprises of the Week Met with Little Loss.

INDICATES SOLID TRADE SITUATION

In All Industries the Number of Mills and Hands at Work Gradually Increasing—Business Men Now Confident of Better Times.

New York, March 27.—Dun's weekly review of the state of trade for the week just ending will, to-day, say: Rarely have markets sustained such surprises as they have received of late with so little loss. Foreign conditions and London alarms, the collapse of the iron ore combination, the destructive floods in the Mississippi valley, and the decision of the supreme court against railway associations, have been used to the utmost, but not even in railroad stocks has the result been important. Were all associations of railroads to cease, it would yet be in the power of capital controlling important lines to stop serious rate-cutting if it chose. With confidence that better times and larger business are coming, men are less disposed every day to throw away good investments, and the very fact that prices of products are low is regarded as a guarantee against much further decline. In all industries, also, the number of mills and shops and hands at work gradually increases. The railroads have been subjected to so much loss of late by cutting of rates, in spite of all associations, that the possibility of open and unrestricted competition, instead of agreements which restrict only the more honest, may well have a sobering influence. The earnings for March thus far compare favorably with the full returns for February. Tonnage eastbound is not quite 5 per cent. below last year's, and a shade more business activity would change all that. Stocks were heavily sold after the supreme court decision and the withdrawal of some western roads from various associations, but railway shares average a decline of only \$1 per share, showing that there are men of faith as well as men of fear. Industrial and manufacturing stocks generally are stiff, in the belief that heavy purchases of cheap materials will ensure profit when business moves forward.

Cereals, Iron and Steel and Products.

The grain markets have lost without reason the gain they made without reason the previous week. Wheat supplies are running out, but nobody believes there is coming a famine before June, when the harvesting of southern wheat will begin. Western receipts were over a third smaller than last year, but the better prospect for the crop of winter wheat has more weight. Atlantic exports, flour included, were nearly as large for the week as last year, but when Europe buys in corn the equivalent of 6,400,000 bushels of wheat at less than 60c. the price of wheat is not easily advanced above 80c. Cotton was helped upward ½ by the flood, but has lost half the gain, although manufacturing is more hopeful. Without change in prices, goods were in better demand, and sales of 500,000 pieces of print cloths result in a stronger tone. The final dissolution of the lake ore pool has been expected ever since the Carnegie-Rockefeller deal and assures lower prices for ore the coming year, though perhaps not lower than in 1895. The demand is steadily increasing. Bars are still demoralized and at the lowest point, but for plates, sheets, wire rods and wire and all nails the demand is growing larger. The demand for rails continues enough to strengthen prices, although some from speculative purchases are offered below the present prices of mills. Tin is a shade lower, with larger arrivals, though the distribution has been considerable, and lead is decidedly stronger, but copper is weak.

Wool and Boots and Shoes.

Speculation in wool has recorded larger sales for four weeks than ever before. Americans have also bought largely at London, where the market is excited and has advanced. With heavy supplies here, these large imports, and new wool coming in May, there may be found overloaded dealers. Prices here are still advancing. The wool manufacture is steadily increasing, but cautiously, as it is too early to anticipate results from changes which may be made in duties. Sales of boots and shoes increase, many more large orders having been taken by some manufacturers at prices lower than have been asked, while those who abate nothing get comparatively little new business. Shipments for March have been less than in 1895, and in 1893, but larger than in other years. Hides are generally strong without much change, and leather is stiff, though the business in nearly all grades is inactive. Money markets are easy. Failures for the week have been 291 in the United States against 259 last year, and 50 in Canada against 39 last year.

Prorogued Until 1898.

Concord, N. H., March 27.—The legislature has been prorogued until the last Wednesday of December, 1898.

CANADA IS HOSTILE

Retaliation Against the United States Urged in all Quarters.

PARLIAMENT WILL SURELY ACT

Three Measures Aimed at Us Already Drafted and Much More Unfriendly Legislation Expected Before the Session Adjourns.

Ottawa, Ont., March 27.—Members of parliament from every quarter of the Dominion report a decided feeling of exasperation in their constituencies in regard to the attitude of the governing party in the United States, and the announcement of a tariff bill that will reduce materially the duties on goods imported mainly from Great Britain and retain the present duties on those goods coming from the United States has been received with general favor. A prominent liberal member from Ontario, who has heretofore been solicitous for closer relations with the United States, says that his constituents are very pronounced in favor of a retaliatory tariff and an alien labor law against the United States, with a discriminating tariff in the interest of British manufacturers.

Much Unfriendly Legislation.

Mr. Cowan of South Essex, who may be said to represent the sentiment of the border constituencies, gives notice of three bills, one respecting alien labor, one providing for changes in the immigration laws, and the third regarding the wrecking laws. From the present sentiment in parliament it is safe to say that all three, which are more or less retaliatory in their nature, will pass without very active opposition, and unless the ardor of members in the expression of anti-American sentiment is restrained there is no knowing how many other bills of a like tendency may be introduced before parliament is prorogued. The feeling seems to have taken deep root that the United States believes that Canada can be coerced and bulldozed into the American union, and this feeling has aroused a spirit of resentment that bids fair to lead to much unfriendly legislation during the present session.

Discussing the Speech from the Throne.

In the house last night Mr. Russell, liberal, Halifax, moved the address in reply to the speech from the throne, and in regard to the tariff said that differences of opinion existed and there were those who believed the tariff was a tax, and it should bear as lightly upon the people as possible. In his own opinion Canada had been on the wrong track for eighteen years—ever since the protective tariff was adopted. To get back to the proper system of low taxation the government would have to go cautiously or otherwise the industries of the country would suffer. Mr. Russell also asked that all interested in prohibition of the liquor traffic would read the report of the result of the inquiry into the liquor question published in the Atlantic Monthly a couple of months ago by President Elliot of Harvard university. Sir Charles Tupper, leader of the opposition, in his speech contended that Premier Laurier's settlement of the Manitoba school question had not given one concession to the Roman Catholics, and accused the premier of appealing to protestants on the one hand and to Roman Catholics on the other. As for the policy of high protection he was more in favor of it to-day than ever. Canada would now be in a more prosperous condition than it ever was, he asserted, but for the unsettled state of tariffs in other countries, which, he said, were now causing mills to be closed in Montreal and elsewhere.

Kentucky Senatorial Situation.

Frankfort, Ky., March 27.—The senatorial situation this morning is unchanged. Dr. Hunter's friends say that on the next ballot their candidate will be elected, but his opponents assert that the vote he received yesterday—sixty-two, two short of the necessary number—was the utmost strength he could develop, and that from now on the number of his adherents will gradually dwindle. The republican state central committee denies the story that it has prepared an address condemning Gov. Bradley for his course in the senatorial contest.

The Terry Divorce Case.

Paris, March 27.—The divorce case of Antonio Terry against his wife has been postponed until after the Easter vacation of the court. Mr. Terry is an American citizen worth about \$3,000,000. It is said that if he wins his suit he will marry Miss Sibyl Sanderson, the well known American singer, who is now in St. Petersburg.

Shaw Monument Exercises.

Boston, March 27.—President McKinley will not be able to attend the Robert G. Shaw monument exercises in this city owing to the press of public business.

Edmund Charles Yon Dead.

Paris, March 27.—Edmund Charles Yon, the celebrated French painter and etcher, is dead. He was born in Paris March 21, 1841.

GREECE PROTESTS.

Says the Blockade of Crete Is Contrary to Sentiments of Humanity.

Athens, March 27.—The government has handed to the representatives here of the several powers a note protesting against the blockade of Crete. The note declares that in view of the bonds uniting the Greeks and the Christians of Crete the blockade, which is depriving the island of the means of provisioning itself, is contrary to the sentiments of humanity inspiring the powers. The president of the boule, on behalf of that body, has sent to Mr. Gladstone a message of gratitude for the stand he has taken in behalf of Greece and the Cretan Christians. The message says in part: "All your glorious life has been full of combats for justice and liberty. Now that the Hellenic nation has risen to fight in favor of Crete, which is bedewed with blood, you come to uphold anew the rights of an oppressed race."

Hanotaux and Salisbury's Conference.

London, March 27.—It is reported here that at the two conferences held in Paris yesterday between Lord Salisbury and M. Hanotaux, the French minister of foreign affairs, the former being on his way to Cernize to act as lord in waiting in attendance upon the queen, it was decided that the proposed blockade of the Piraeus, the port of Athens, and Volo, Thessaly, should be enforced if Greece refused to assent to the establishment of a neutral zone extending one mile on either side of the Greco-Turkish frontier.

Greeks Sail for Home from New York.

New York, March 27.—One hundred and fifty young Greeks, after bidding an affectionate farewell to friends and countrymen, at 11 o'clock last night marched aboard the French line steamer La Champagne, and at 5 o'clock this morning started for Greece, where they will offer their services to King George as soldiers.

GREATER NEW YORK OFFICERS.

The First Mayor's Patronage Will Be Nearly as Great as the President's.

New York, March 27.—The first mayor of Greater New York will have almost as much patronage at his disposal as the president of the United States. He will serve four years and receive a salary of \$15,000 per annum. The principal offices, with the salaries attached, which the mayor will have to fill are: City chamberlain, \$12,000; corporation counsel, \$15,000; four police commissioners at \$5,000 a year each; a fire commissioner at \$7,500; three dock commissioners, one at \$6,000 and two at \$5,000; two commissioners of charities at \$7,000 and one at \$3,500; president of the board of health, \$7,500; three health commissioners at \$6,000; commissioner of correction at \$7,500; president of the tax department at \$8,000 and four commissioners at \$6,000 a year each; forty deputy tax commissioners at \$2,700 a year each; three park commissioners at \$5,000 a year each; two building commissioners at \$7,000 a year each and one at \$3,500; president of the board of improvements, \$8,000 a year; commissioner of water supply, \$7,500; commissioner of highways, \$7,500; commissioner of street cleaning, \$7,500; commissioner of sewers, \$7,500; commissioner of public buildings and lighting, \$7,500; commissioner of bridges, \$7,500; two commissioners of accounts, salary \$3,000 a year each, and a chief of the bureau of statistics at \$3,500.

Frank Election Set.

Owosso, Mich., March 27.—Thomas Leadbeater, a local pugilist, has been sentenced to one year at Ionia penitentiary for the malicious destruction of property. Leadbeater made a wager with a friend, the terms of which were that if McKinley were elected he was to demolish Fred Bartlett's saloon, and in the event of Bryan's winning the friend was to do the work of destruction. The bet was paid a few weeks ago by Leadbeater, who smashed the windows of Bartlett's place and destroyed a \$100 mirror.

Judge Dixon Critically Ill.

Jersey City, March 27.—Supreme court justice Jonathan Dixon is lying at his home on Jersey avenue in a critical condition. A week ago he contracted a heavy cold which developed into pneumonia. Yesterday and last night he was very low, but seemed a trifle improved this morning by reason of having obtained sleep and taken nourishment.

To Pay Reluctant Members.

Berlin, March 27.—In the course of the progress of the estimates toward their third reading in the reichstag an amendment proposed by the radicals providing for the payment of members of the house was adopted by a vote of 179 to 49.

Carriage Business Increasing.

Amesbury, Mass., March 27.—The carriage business is on the increase and large shipments have been made in the past few days.

This Is Encouraging News.

Harrisburg, Pa., March 27.—State factory inspector James Campbell says that there are 100,000 more people employed in Pennsylvania now than there were six months ago.

BLOW TO THE CUBANS

Luis' Conviction a Serious Setback to Filibustering.

MAY STOP THE PRACTICE ENTIRELY

Following So Closely on the Conviction of John D. Hart the Friends of Free Cuba Are in Gloom.

Baltimore, March 27.—Those interested in the welfare of the cause of Cuba believe that the conviction of Dr. J. J. Luis on the charge of entering into a conspiracy to violate the neutrality laws of the United States by having taken part in fitting out the filibustering expedition which sailed from here on the James Woodall on July 9, 1895, and which landed in Cuba fifteen days later, has caused gloom among those friendly to the cause of the patriots in this country, following, as it does, so closely upon the heels of the recent conviction on a similar charge of John D. Hart of Philadelphia. They take a rather gloomy view of the situation, believing that communication with Cuba's natural base of supplies, the United States, already difficult, will be rendered almost insuperable. Much sympathy is felt for Dr. Luis, who is a finished scholar and a sensitive, high-strung man, to whom prison life would prove particularly irksome. The only feature of the case cheering to Dr. Luis and his friends is the fact that Judge Morris has consented to hear next Monday a motion for a new trial, which they hope will be granted. They say that the evidence against Dr. Luis, which, they claim, was very weak, citing the fact that the jury took thirty hours to reach a verdict as proof of the assertion, will be further undermined by testimony in rebuttal, and they believe that acquittal will ensue. The penalty of the crime is a fine not exceeding \$3,000 and imprisonment for not more than three years. Dr. Luis is in jail, the court refusing to accept bail pending motion for a new trial.

Released from Cuban Prison.

Havana, March 27.—Caesar Esquerio Montero, who was born at Key West, was arrested here two weeks ago as a political suspect. He was released unconditionally yesterday, but will return to Key West soon. The American consulate ignored the fact of his arrest, and his release was due entirely to the initiative of the Spanish authorities.

Philippine Rebel Strongholds Captured.

New York, March 27.—Senor Don Arturo Baldasano, the consul general for Spain in this city, is in receipt of a telegram from the Spanish minister in Washington, reporting the capture of Imuso, the rebel stronghold in the Philippine islands. Cavite Viejo, another rebel stronghold has also been surrounded and was in flames, the telegram said.

The Philippine Revolt.

Madrid, March 27.—The Manila correspondent of the Imparcial cables that the Spaniards there take a gloomy view of the outlook. It is thought that even if the rebellion should be temporarily suppressed it would recur in an aggravated form.

ENGLISH SECRET SERVICE.

Its Work in the Arrests of Alleged Dynamiters Fraught in the Commons.

London, March 27.—The house of commons yesterday afternoon debated the votes for the home office. Michael Davitt, the well-known Irish leader, declared that members of the secret service plotted the recent dynamite scare, the prosecution of Edward J. Ivory for complicity in which alleged plot resulted in a complete fiasco. Mr. Davitt added that the purposes of the secret service in originating the scare were made an official reclame. Sir Robert Finlay, solicitor-general, denied Mr. Davitt's statements, adding that the prosecution of Ivory had collapsed solely from lack of evidence. Sir Mathew White Ridley, the home secretary, stated that there was convincing evidence of the existence of the plot. If Ivory, Tynan and other conspirators had not been arrested great damage to life and property would have been done in Great Britain. John Dillon, the leader of the anti-Parnellites, asserted that secret service money had been used to entrap men who were innocent of crime. James C. Flynn, anti-Parnellite, moved a resolution of the vote, owing to the prosecution of Ivory. This was rejected by a vote of 107 to 50.

Flood Situation Serious at Greenville.

Jackson, Miss., March 27.—A special from Greenville says that the river rose ten inches during the twenty-four hours ending at midnight and more is coming. The town of Greenville, between which and the river there is a protection levee, is now six feet below the level of the water, but the residents have confidence in their ability to hold the fort. The water is within five feet of the top of the levee and rising. A break would mean the destruction of millions of dollars' worth of property.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore of great importance, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Casino Theatre.

Thursday Evening, April 1st,

THE CELEBRATED

GUY BROTHERS'

Minstrels!

30—PEOPLE—30

The Guy Bros. have spared no expense in securing the best talent in the minstrel line. Everything new and up-to-date.

Best Band and Orchestra Traveling

See the three drum majors in the big street parade.
Seats on sale at H. S. Dunsberry & Son's.

OVER THE SHAWANGUNKS

WHAT OUR NEIGHBORS IN SULLIVAN COUNTY ARE DOING.

All the News from All Parts of the County—Many Matters of Interest Condensed from Our Sullivan Exchanges and Contributed by Wide Awake Correspondents.

—Charles Whitmore, who was sent to the almshouse, twenty years ago, from the town of Mamakating, died in the institution, Monday.

—The citizens of Mongaup have subscribed half the cost of a bridge over the Delaware at that point and the prospect of raising the remainder is good.

—N. B. Tompkins, who was elected an assessor of the town of Thompson, failed to qualify within the appointed time. He was appointed by the town board but the appointment is only for a year while he was elected for three years.

—Charles Stubbs, of Summitville, was lying in a boat on the Bashas Kill, March 19th. Part of one of his knees showed above the gunwale of the boat and attracted the attention of a duck hunter who thought it was a mink and fired, putting eleven shot in the knee.

—The movement to organize a mutual insurance company in Liberty is taking form. The company will be called the Sullivan County Mutual Insurance Company. It is hoped to form an organization April 3rd.

—The Jeffersonville Record, referring to an appeal from the officers of the Monticello road to show faith in the proposed extension of the road by agreeing to take its bonds, says there is "no money around here for railroad investment, faith or no faith."

—A white leghorn rooster, owned by L. L. Weed, of Monticello, is one of the handsomest and undoubtedly the most vicious fowl in this county. Tuesday afternoon, while Mr. Weed's two small children were playing in the yard, the bird flew at Rosie, the little girl, and knocking her down struck her in the face twice, when Mr. Weed rushed out and drove it away. The rooster then made an attack on LeFevre, the son, and was driven off. This bird has an aversion to children that has previously manifested itself. Mr. Weed will get rid of the combative bird at once.—Monticello Republican.

—Monticello receives \$1,070.33 of public school money and is very proud of the fact that this is \$257.42 more than Liberty gets.

—Isaac Applebee, of Hurleyville, was driving home, a few days ago, a couple of cows that he had bought near Monticello, when one of the animals stuck fast in the mud and broke her leg. She had to be killed. From this time on Mr. Applebee is a believer in road improvement.

—Hugh Carey, a veteran who served all through the war, died in the almshouse, a few days ago, aged eighty-four years.

LIBERTY-JEFFERSONVILLE TROLLEY ROAD

Although \$1,690 of the \$10,000 asked from Liberty in aid of the electric road to Jeffersonville is still to be raised the contract for the road has been let to Frank Lober, who will begin work as soon as the weather will permit. The right of way for the whole distance was secured without difficulty, farmers as a rule recognizing the great help that the road will be to their properties. It is hoped to have the road running early in July.

Locked Up His Wife in a Bureau Drawer.

John Vanderstaadt, of near Paterson, was arrested Thursday on complaint of his wife, who charges that he has frequently imprisoned her by locking her in a drawer of a very large bureau which they brought from Holland with them. He had bored holes in the drawer so as to afford ventilation, and when he thought his wife needed disciplining was in the habit of stowing her away for several hours. Vanderstaadt treated his arrest as a huge joke, till the justice told him he must agree to quit using his bureau drawer prison or go to prison himself, when he quickly promised to find some other way of maintaining his supremacy in his family.

W. C. T. U. Social.

The monthly social of the W. C. T. U. will be held next Tuesday evening, March 30, at No. 4 Gardner avenue, the residence of Mrs. Hattie Hill. Supper and entertainment, twenty cents. Mrs. Jarley, although very aged, will endeavor to be present. It is earnestly hoped that all the brothers and cousins will be in attendance from 5 to 10 o'clock.

HOWELLS.

Special Service by Horace Arney.

Correspondence: ARGUS and MERCURY.

Rev. Horace Arney, of Middletown, will hold a special evangelistic service in the Congregational Church, to-morrow (Sunday) morning. It is hoped there will be a good audience to hear him. In the evening the usual monthly missionary concert will be held, to which all are cordially invited.

A Short Cut to Health

To try to cure constipation by taking pills is like going round in a circle. You will never reach the point sought, but only get back to the starting point. A perfect natural laxative is Bacon's Celery King, the celebrated remedy for all nerve, blood, stomach, liver and kidney diseases. It regulates the bowels. J. J. Chambers, 57 North street, will give you a sample package free. Large sizes 25 and 50 cents.

HOOD'S PILLS cure Liver ills, Biliousness, Indigestion, Headache. Easy to take, easy to operate. 25c.

MAKES THE WEAK STRONG!

The Foremost Athletic Trainer in America Recommends Paine's Celery Compound.

John Graham is the foremost man in American athletics.

It was he who managed the successful team from this country that attracted world-wide attention in the recent Olympic games at Athens.

Formerly Trainer for Columbia college, then for Princeton and finally for Harvard university, Mr. Graham had much to do with raising the standard of collegiate sports. A small army of gentlemen have been guided by him since he left Harvard and took his present position, superintendent of the famous gymnasium of the Boston athletic association.

Three of his proteges, White, Brewer and McCarthy, have just won the New England championship at the mile, quarter-mile and five-mile run. He has trained Weeks of Brown university, one of the best college sprinters in the country.

Many another student of what makes men and women strong has used and recommended Paine's celery compound as the best known remedy for those who are weak and dispirited, the overworked and enfeebled persons who are most concerned in the general awakening of interest in outdoor exercise and indoor attention to the proper rules of health.

It was the ablest professor of medicine and surgery in any college, that giant among men, Prof. E. Phelps, M. D., LL.

Business Cannot Be Retard

by local applications as they can reach the diseased portion of the body. There is only one way to cure deafness and that is by constitutional remediation. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & Co., Toledo, O.

Dr. Wood's Norway Pine Syrup brings instant relief in cases of asthma, bronchitis, and all throat and lung diseases, down to the very borderland of consumption.

"For three years I suffered from Salt Rheum. It covered my hands to such an extent that I could not wash them. Two bottles of Burdock's Blood Bitters cured me." Libbie Young, Pope's Mills, St. Lawrence county, N. Y.

It is surprising what a "wee bit of a thing" can accomplish. Sick headache, constipation, dyspepsia, sour stomach, dizziness, are quickly banished by De Witt's Little Early Risers. Small pill Best. W. D. Olney.

Don't allow the lungs to be impaired by the continuous irritation of a cough. It is easier to prevent consumption than to cure it. One Minute Cough Cure taken early will ward off any fatal lung trouble. W. D. Olney.

D., of Dartmouth college, who after years of patient investigation and study, assisted by what was best in the progress of medical science at home and abroad, first discovered the wonderful formula of Paine's celery compound.

There was no doubt of the interest that would be awakened at once by the announcement of any discovery by Prof. Phelps. The formula from the first was furnished by the best physicians, and forthwith this remarkable Paine's celery compound was personally used and professionally prescribed by them. The result of the closest investigation might have been expected. It soon required a considerable industry to produce the remedy, and rapidly but steadily, without ceasing, the demand for Paine's celery compound has increased, until today there is no other remedy that in comparison begins to hold half the public attention that it holds.

In untold numbers of cases where every other remedy has been tried and failed, Paine's celery compound has attained the wished-for results, making the weak strong, purifying the blood, rebuilding the worn-out nervous tissue, curing chronic sickness, proving a never-failing and permanent relief for rheumatism, neuralgia, kidney diseases and disorders of the liver, all due to the impairment of the person's nervous system, the consequent impoverishment of the blood and

the breaking down in consequence of some particular organ.

When Mr. Graham, writing Jan. 18, 1897, said: "I have used Paine's celery compound to my benefit, and I have no doubt that any person undergoing great physical and mental strain would find it of great service. For students especially it ought to be of great value."—When so prominent a student of bodily health, who has no equal, unless, perhaps, one mentions Dr. Sargent, of Harvard, with whose methods Mr. Graham became well acquainted at Harvard—when Mr. Graham says bluntly that after his experience he believes others would find Paine's celery compound of great service, what man or woman out of perfect health can afford to neglect his well considered and expert advice?

There is no doubt that Paine's celery compound cleans the blood of eczema, salt rheum and such humors, not only in the spring, that is so favorable a time, but at any time during the year, so thoroughly that nothing further is ever heard of them.

Paine's celery compound has been tested, tried, scrutinized and heartily approved by so many impartial physicians and men and women whose word in any matter would not be questioned for a moment, that one must be stubborn-minded, indeed, who prefers to mope around half sick instead of verifying these positive, straightforward statements.

Doctors Prescribe It.

"JERSEY CITY, N. J., March 2.—My physician recommended Allen's Foot-Ease, the powder for aching, sweating feet, corns and bunions. I shake it into my shoes, and am delighted with it. D. D. Clark." At all druggists and shoe stores, 25 cents. Sample free. Address Allen S. Olmsted, LeRoy, N. Y.

Ladies Can't Shave.

Subject of morning sermon: "The Christian Law of Values." evening, "The Attractive and Triumphant Cross." ("Is man doomed at death?") All are invited.

THE CASE OF TOMMY O'LAUGHLIN

Has Never Been Severely Punished by His Mother.

Mrs. O'Laughlin, mother of the boy whom Mr. Mullison was fined \$5 for punishing too severely, called at the ARGUS' office, yesterday, and most emphatically denied the statement made on the strength of Superintendent Tut-hill's investigation of the case, that she had used a stick in punishing the boy. She says that she has never done anything of the kind and that she has never punished the boy severely. Mrs. O'Laughlin was accompanied by a neighbor, who confirmed her statements, and other neighbors also say that she always treats the boy well and kindly. We are glad to make this correction, for the boy has had such a hard time at school, that his life would be most trying if he received anything but kind treatment at home.

A COURSE OF READINGS.

Mrs. Margaret Crawford Jackson to Read "Those People" in this City.

Mrs. Margaret Crawford Jackson has decided to give a course of public readings in this city. She will read her book, "Those People," which has been warmly praised by competent critics.

There will be seven readings in the course and the first one will be given in the lecture room of the First Congregational Church, Friday evening, April 2nd., at 7:45 o'clock. Tickets for the course are only one dollar and may be had at Hanford & Horton's.

Mrs. Jackson has given readings in Goshen, Montgomery and other places, and has shown that she possesses eloquent talents of no mean order, all her audiences having been pleased and interested.

What use is there in eating, when food does you no good—in fact, when it does you more harm than good, for such is the case if it is not digested?

If you have a longing for food there is no use of forcing it down, or it will not be digested. You must restore the digestive organs to their natural strength and cause the food to be digested, when an appetite will come, and with it a relish for food.

The tired, languid feeling will give place to vigor and energy; then you will put flesh on your bones and become strong. The Shaker Digestive Cordial as made by the Mount Lebanon Shakers contains food already digested and is a digester of foods as well. Its action is prompt and its effects permanent.

Doctors prescribe Laxol because it has all the virtues of Castor Oil and is palatable.

No need to scratch your life away. Don't's Ointment brings instant relief in all cases of Itching Piles, Pin Worms, Eczema, Ringworms, Hives or other itchininess of the skin. Get it from your dealer.

Much in Little

Is especially true of Hood's Pills, no medicine ever contained so great curative power in so small space. They are a whole medicine.

Best, always ready, always efficient, always satisfactory; prevent a cold or fever, cure all liver ills, sick headache, jaundice, constipation, etc. The only Pills to take with Hood's Sarsaparilla.

Hood's Pills

One Price, 10 North St.

—Dr. Kennedy's remedies are for sale by all
druggists.

LIVE LOCAL TOPICS.

—Additional local matter on third
page.
—Guy Brothers' Minstrels, at the Ca-
sino, next Thursday evening.
—Eggs have been sold in Walton, this
week, for eight and ten cents a dozen.
—The current number of the *Forum*
contains a caustic article on the water
question.
—A number of horses have died in Wal-
ton during the past few days and a num-
ber of others are sick.
—Diphtheria and grip are prevalent at
Greycourt. In one family there are sev-
eral very low with diphtheria.
—Fred A. Henth will sing at the First
Baptist Church, to-morrow. In the
morning "Not a Sparrow Falteth." In
the evening "The Holy City."
—The Port Jervis saw factory which
has been working five days of eight
hours each week is now running on full
time and has many orders ahead.
—The first advertising car of the Fore-
paugh-Sells Brothers combined shows
arrived in town this morning, and will
bill the city and surrounding country.
—W. S. Roe, of the James Street Hotel,
says that the announcement that he had
rented a hotel near Port Jervis was in-
correct and that he will remain at his
old stand.
—The recently organized Highland
Mutual Insurance Co., of Newburgh, pro-
poses to at once establish agencies in
Orange, Rockland, Ulster, Greene, Al-
bany and Sullivan counties, in all of
which it expects to do business.
—It is said that a woman "spotter"
from the State Board of Pharmacy has
been in Port Jervis, trying to buy land-
inum and peppermint from grocers.
On evidence secured by a woman pro-
ceedings have been brought against
grocers in other places who have sold
drugs which under the druggists' law they
are forbidden to sell.

PERSONAL.

—Several cases of diphtheria are re-
ported at Monroe.
—Miss Laura Sullivan, of Marlboro, is
visiting Mr. Hader, of Lake avenue.
—Miss Hawk, of Newark, is visiting
Mrs. H. W. Rowland on Academy ave-
nue.
—Melville Burger went to New York
city, to-day, on a few days' visit to
friends and relatives.
—Mr. and Mrs. T. Doremus, of the Bell
House, went to Harknessack, N. J., to-
day, where they will probably locate.
—Miss Wells, of Chester and Miss Wil-
cox, of Pine Island, are visiting Miss
Claribel Gardner, on Highland avenue.
—Alice Bremer, of Middletown, N. Y.,
spent Tuesday with her sister, Mrs. F. B.
Whittle, of this town.—*Deckertown In-
dependent.*
—Mrs. Thomas R. Hart and child, of
Brooklyn, who have been visiting Mrs.
Hart's parents, Judge and Mrs. T. N.
Little, returned home to-day.
—Mrs. W. B. Royce passed a bad night
and is not as well to-day as she was yester-
day, but her condition is not such as to
cause her friends serious alarm.
—There is but little change in the con-
dition of Mrs. Isaac R. Clements. She is
gradually growing weaker, however,
and it is now only a question of how
long her vitality will stand the strain.
—A special correspondent writing from
St. Augustine, Fla., mentions Mr. and
Mrs. Albert Hull, of this city, as among
the prominent New Yorkers who are en-
joying life along the east coast of Florida.
—A. C. Mosher left town, this morning,
and sailed, this afternoon, on the train for
Seminole for Jacksonville, Fla. The trip
is a business one and he will be absent
four or five weeks during which time he
will visit several southern cities.

An Octogenarian's Suicide.

John Shimer, a German resident of
Clinton township, Wayne county, Pa.,
recently shot and killed himself with a
rifle. He was eighty-four years old and
had been a sufferer from dropsy for a
long time. His physician thinks he would
have died in a week from this disease.

IN THE RAILROAD WORLD.

—A new time table goes into effect on
the Lehigh and Hudson, April 1st.

The People Are Convinced.

When they read the testimonials of
cures by Hood's Sarsaparilla. They are
written by honest men and women, and
are plain, straightforward statements of
fact. The people have confidence in
Hood's Sarsaparilla because they know
it actually and permanently cures, even
when other medicines fail.

Hood Pills are the only pills to take
with Hood's Sarsaparilla. Easy and
yet efficient.

LOCAL CASES IN THE COURT OF
APPEALS.

Two Appeals of the O. and W. Argued—
Also Abner Mills' Appeal From the
Mead Judgment.

The appeal of the Ontario and Western
Railroad Co. from the judgment of
\$3,020.25 obtained by Nettie M. Dayton,
administrator, was argued in the Court
of Appeals, Thursday, by W. F. O'Neill
for respondent and L. E. Carr for appel-
lant. The judgment was for the death of
plaintiff's husband, a brakeman, who
was killed August 23, 1892, at Moodna
crossing, while coupling an engine to a
flat car.

The O. and W.'s appeal from the judg-
ment of \$2,000 obtained by John Red-
ington, administrator, for the death of
Brakeman Redington who was killed
while coupling cars at Livingston Manor,
July 14, 1891, was argued yesterday.

Another case of local interest which
was argued, yesterday, was that of E.
Katie Read, executrix of T. A. Read, re-
spondent, against Abner Mills, appel-
lant. This is an appeal from a judg-
ment of the general term, second depart-
ment, affirming a judgment of a referee
in favor of plaintiff for \$2,675.44 dam-
ages and \$704.09 costs and disburse-
ments, together with \$87.12 costs of
appeal. Action was brought by plain-
tiff, as executrix, to recover for the ser-
vices of her husband as an attorney and
counselor at law, rendered for the defend-
ant at his request, and for expenses and
disbursements incurred while performing
such services. The defense is a denial of
the rendition of the services as alleged,
or to the extent alleged, or of any in-
debtedness therefor, and averment of
special agreement as to the compensa-
tion to be paid for the services rendered,
and of accord, satisfaction and payment
therefor, and also of counter claims for
money loaned and advanced and goods
sold and delivered by defendant to the
deceased at his request. Daniel Finn
made the argument for respondent.

BASKET BALL AT THE ARMOY.

Many Spectators Watch an Interesting
Game Between Teams from the Ath-
letic Association.

Fully 250 people saw the game of bas-
ket ball at the armory, last night, be-
tween two teams from the 24th Sepa-
rate Company Athletic Association. The
game was new to most of the spectators
and many of the points of play were un-
intelligible to them, particularly the
numerous foul plays detected by the um-
pires, and as a penalty for which the
members of the offending team were com-
pelled to stand by while their opponents
had an uninterrupted try for a goal.

When the rules and fine points of the
game are thoroughly understood by the
spectators, the sport will become as popu-
lar as indoor baseball.

The game was played in two halves of
twenty minutes each with two minutes
intermission.

The "Pickups" led in the first half by
a score of 3 to 1; but the "Regulars"
got down to business in the second half
and by the clearest kind of work made
three goals from the field, increasing their
score to seven, while at the same time
they prevented the "Pickups" from scoring.

The teams lined up as follows:
Regulars. Position. Pickups.
Thompson, center. Gould
Banister, right forward. Townsend
Cummings, left forward. Millpaugh
Dickerson, left guard. Wagoner
Wongaroth, right guard. Gan-man
Stedman, left guard. Bailey
Referee, E. H. Rose; umpires, J. F. Col-
well, F. C. Royce.
Score—Regulars, 7; Pickups, 3.

TWO LOST POCKETBOOKS.

Two Women From Out of Town Have
the Bad Luck to Lose Their Purses in
This City.

Two cases of lost pocketbooks were
reported to the police yesterday. Mrs.
S. E. Dusenberry, of Stony Ford, lost one
between 123 East Main street and 53
South street, between 2 and 4 o'clock in
the afternoon. It contained a check on
a New York bank payable to her order,
two five dollar bills and two or three
one dollar bills.

The pocketbook was returned to Mrs.
Dusenberry, this morning, by the honest
person who picked it up.

Mrs. Mary Robinson, of Pine Bush,
lost her pocketbook on Union street
about 10:40 o'clock yesterday morning.
It contained eight or nine dollars,
a baggage check and a ticket to Pine
Bush.

A young man reported to the police
that he had seen another young man
pick a pocketbook from the ground on
Union street and place it in his pocket.
The latter man was found by the police,
but denied having found a pocketbook,
and as there was no further evidence
against him he was discharged.

Lenten Services at St. Joseph's.

The Lenten devotion at St. Joseph's
Church, last evening, was largely attend-
ed. The sermon was preached by Rev.
Father Salley, of Port Jervis. His theme
was the Sacraments.

Auction Prices in Mount Hope.

At the auction sale of the farm stock of
the late S. L. Everett, of Mount Hope,
Thursday, cows averaged about \$30 and
young stock \$9 to \$10 a head. A horse
sold for \$75.

Experience proves the merit of Hood's
Sarsaparilla. It cures all forms of blood
diseases, tones the stomach, builds up
the nerves.

Ride the Orange County Express Bi-
cycle.

All drug stores sell Dr. Williams' Pink Pills.

THE CONVALESCENT HOME.

Middletown and Goshen Churches Unite
to Care for Sick New York Children—
The Home to be in This City This
Year.

The Middletown-Goshen Convalescent
Children's Home will be established in
this city this year. Seven Middletown
and three Goshen churches have united
to carry on the good work begun last
year. They are the two Presbyterian,
two Congregational, Episcopal, Metho-
dist and Baptist churches of this city,
and the Methodist, Episcopal and Pres-
byterian churches of Goshen.

Last year the managers of this move-
ment leased a farm house between this
city and Goshen, and employed parties to
take charge of it, furnishing all the sup-
plies necessary to carry it on, and while
a good work was accomplished there
were some features that were not en-
tirely satisfactory, and it was decided to
board the children this year at a stated
price if any one could be found willing
to take them.

A satisfactory arrangement has been
made with Mrs. Hallock on Horton
avenue to board the children. She has
a large and nicely furnished house located
on very high ground in Oakland place,
in the eastern portion of the city, where
the air is pure and the surroundings
pleasant.

The Home will be opened in the latter
part of May and kept open until about
September 1st.

The children who will be given tempo-
rary homes will be collected from the
hospitals and free dispensaries, after
recommendation by the physicians in
charge, and before being sent here will
be given an examination by a physician
employed by the Tribune Fresh Air
Fund, so no contagious diseases will be
carried into the Home. A lady employed
by the Fresh Air Fund is sent out as
care taker with each batch of children
remaining with them during their stay.

Last year one hundred and seven chil-
dren were cared for at the Home.
Usually they remained two weeks, but
were kept longer if their condition
warranted it, one child having been
kept about two months. Generally,
however, two weeks of fresh air, plenty
of milk and nourishing food were suffi-
cient to bring the roses back to the
pale faces of the little ones, and they
returned to their city homes strong and
healthy.

It costs money to carry on this good
work, and it is obtained wholly by con-
tributions from the charitable. Money
is needed to pay the board of the chil-
dren, and it is often necessary to furnish
them with clothing, and contributions of
money and clothing will be thankfully
received. Either or both may be let
with Harry W. Tutbill, of this city, or
R. H. Wood, of Goshen. It should be
understood that, while this movement
was started by members of the churches
named, it is a public charity, and mem-
bers of other churches, or those not
members of any church, are solicited to
contribute as they may feel inclined.

THE WALLKILL SOCIAL CLUB.

Another Dance Held in the Assembly
Rooms.

The Walk-kill Social club had another
dance at the Assembly Rooms, last
night. Nearly two hundred persons were
present and it goes with out saying that
all had a good time. They always do at
the meetings of this club.

Roscher's orchestra furnished the
music and the merry dance went on until
4 o'clock this morning.

The committee in charge was as fol-
lows: J. H. Buren, Ernest Baren, Miss
Jennie Johnson, Miss Mamie Reeve, Mr.
and Mrs. John Ryerson, Mrs. Ida Tut-
till, George McBride, Miss McBride.

"Dry" Wawayandantes in "Wet" Middle-
town.

Two residents of the town of Wawa-
yanda were before the Recorder, this
morning, upon charges of intoxication.
Both were helplessly drunk when gather-
ed in by the police, and could present no
plea other than guilty. They were given
fifteen minutes to get out of town.

Jesse Bansee Convicted of Pension
Fraud.

Jesse C. Bansee formerly of Ellenville
was convicted, yesterday, in the criminal
branch of the United States Circuit
Court in New York of making false re-
turns to the Pension Bureau, and was re-
manded until Tuesday for sentence.

Best of All

To cleanse the system in a gentle and
truly beneficial manner, when the spring-
time comes use the true and perfect
remedy, Syrup of Figs. One bottle will
answer for all the family and costs only
50 cents; the large size \$1. Buy the
genuine. Manufactured by the Cali-
fornia Fig Syrup Company only, and for
sale by all druggists.

HER MAJESTY'S CORSET

Charming women must have pretty surroundings and nothing contributes
more than well fitting corsets. HER MAJESTY'S CORSET is perfection in
fit, in comfort, in durability. No other corset gives such a trim appearance to
the wearer or produces a more elegant figure. Every pair warranted.

Another Large Invoice
of Ladies' Silk Capes and Suits, to-day. How is This! All pure Silk Ribbons Morie No. 5,
5c; No. 7, 7c; No. 9, 9c; No. 12, 11c; No. 16, 13c. Almost a gift. Not one-half value, but they
must go. Take a peep at our windows. Then come in and look at the stock.

WELLER & DEMEREST.

Celebrated for its great leavening strength and
healthfulness. Assures the food against alum
and all forms of adulteration common to the
cheap brands.
ROYAL BAKING POWDER CO., NEW YORK

FOR THRALL HOSPITAL.

Manager and Advisory Board Ask the
Council to Submit an Item of \$1,500
for the Hospital at the Appropriation
Meeting.

Mesdames E. W. VanDuzer, Daniel
Finn, R. G. Sliter, Geo. H. Decker, B. C.
Woodward and Frank Buckley, of the
Board of Managers of Thrall Hospital,
and C. Macardell, Jesse W. Canfield and
Frank Buckley, of the Advisory Board,
and George H. Decker, attorney for the
institution, appeared before the Common
Council, last evening, for the purpose of
inducing that body to place in the an-
nual estimate, which it is considering, an
appropriation of \$1,500 to assist in
maintaining the hospital during the en-
suing year.

The arguments were made by Messrs.
Macardell, Canfield and Decker, and
were listened to with marked interest by
the members of the Council. Statistics
were given showing the receipts and ex-
penditures for the past year and the fact
that fifty-eight charity patients had re-
ceived treatment, all of which tended to
show that financial aid from the city
was an absolute necessity, if it is desired
to continue the charitable work done in
the institution.

NEWBURGH'S ELECTRIC RAILROAD

In Appeals to the City for Taxes and
Assessments to the Amount of \$3,227.

Newburgh's electric railroad does not
seem to be in much better financial con-
dition than the Middletown-Goshen
Traction Company. At all events it is
behind on taxes and assessments. Due to
the city of Newburgh, to the amount of
\$3,227, of which sum \$1,977 is due on
assessments for paving Water, Colden
and Front streets and the balance is for
taxes. The Newburgh company has,
however, one great advantage over the
one in this city: its officers are solid
with the city officials and it is not being
crowded for the money due.

FARM BUILDINGS BURNED.

Large Barns in the Town of Crawford
Destroyed by Fire—Horses and Cattle
Burned.

All the buildings except the house on
the farm of Jerry Collins at Collabar,
near Ballville, were destroyed by fire
early yesterday morning, together with
their contents, including a large number
of cattle and their valuable horses. The
farm was occupied by D. W. Livingston,
and the fire is supposed to have been
started by tramps who were denied the
privilege of sleeping in one of the barns.

Swans Were Gone Before Hunters Got
to Monhagen Lake.

Hunters who went in pursuit of swans
at Monhagen Lake yesterday, did not
find the birds, although there is no doubt
they were there. Several parties went to
Monhagen Lake and Highland Lake in
search of them to-day.

Y. M. C. A. Meeting, To-morrow.

Rev. Horace Arney, of Brooklyn, is
expected to head the Y. M. C. A. meeting,
to-morrow at 3:30 o'clock. All men are
cordially invited to come and hear him.

Excelsior's Horses Clipped and Trimmed

Excelsior's horses have been clipped and
trimmed and they now
present a much better appearance than
when purchased.

Deafness of 12 Years Standing.

Protracted Catarrh produces deafness
in many cases. Capt. Ben Connor of Tor-
onto, Canada, was deaf for 12 years
from Catarrh, all treatments failed to
relieve. Dr. Agnew's Catarrhal Powder
gave him relief in one day, and in a very
short while the deafness left him entirely.
It will do as much for you. Sold by J.
T. King and McMonagle & Rogers.

Ride the Orange County Express Bi-
cycle.

Geo. B. Adams & Co.

CORNELIUS N. BLISS.

New Secretary of the Interior is a Fine Business Man.

Cornelius N. Bliss now for the first time holds office of any kind. For years and years he has been in the front ranks of the politicians of the republican party, and on many occasions was very near high honor in the way of an elective or appointive office, but always fell short either by declining place or by some mishap in management. Mr. Bliss has served many times as delegate to city, county and state conventions. In 1885 his friends urged him to go before the state convention as a candidate for nomination as governor, but he declined. Yet he received a very large complimentary vote in that convention. He was twice chairman of the

CORNELIUS N. BLISS.

New York state republican committee, and in innumerable other ways he was of vast use to his party. Mr. Bliss has ever been a merchant, and is quite wealthy. His firm is the representative of some of the largest mills in the country. He is also interested in banks and banking, insurance and other financial industries. He married in 1859 Miss Elizabeth Plummer, of Boston. The new cabinet member is 64 years old and is a native of Fall River, Mass., and was educated in New Orleans. He is regarded as an authority on business matters in general, and is familiar with political history and economic questions of the day. Mr. Bliss' early years were spent in an importing house, where he laid the foundation of his future fortune.

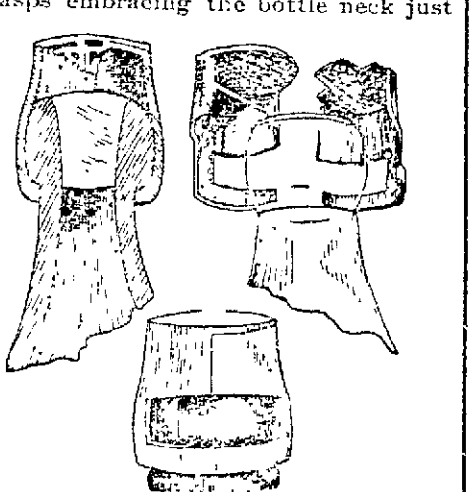

LOOK FOR BOTTLES.

It Protects Manufacturers Against Having Their Bottles Refilled.

One of the latest inventions for which a patent has been granted is an improvement which enables the manufacturer of a liquor or beverage to protect his bottles from being refilled by others and sold again in the original form. The device was invented by a physician of Rodney, Miss. It is a cap designed to be placed upon a filled bottle, covering the cork and retaining it in such a manner that the bottle cannot be opened without breaking the cap. The arrangement is shown in the accompanying illustration.

Fig. 1 is a view in section and Fig. 3 is a side view of the cap applied to a bottle head, Fig. 2 showing the two parts of the cap before it is applied. The cap is made of two similar parts, each having a flat circular top plate, a pendant semicircular body portion, and jaws or clasps formed on a narrow downward extension of the body.

The cap is made of some easily breakable but not readily melted material, and when applied to a bottle head the flat circular top plates overlap each other and lie above the cork, the jaws or clasps embracing the bottle neck just

DEVICE FOR LOCKING BOTTLES

below the head. In order to secure the parts together upon a bottle one of the parts is made with a downwardly extending thin spring plate or catch on the under side of the top plate, adapted to engage a cut out portion of a bar on the under side of the other top plate, by which the parts are locked together automatically on a bottle.

This lock is wholly inaccessible from the outside, making it impossible to remove the cork without breaking the cap and rendering it unfit for further use.

An Important Innovation.

An innovation has been made at Niagara which may have an important influence on the electrical industry. The state of the copper market is often a source of extreme anxiety to electrical engineers. It has been found possible to substitute aluminum for copper for the transmission of heavy currents used in the reduction processes. A line made of aluminum weighed 11½ tons, whereas it would have required 21 tons of copper. The relative conductivity of copper and aluminum is as 100 to 63; but copper being 3.3-10 times heavier than aluminum, weight for weight, aluminum has a conductivity relative to copper, as 208 to 209. The conductors are made into flat bars. Instead of round rods, and neither suffer corrosion nor show any tendency to warp. Aluminum is equal in strength to copper, and, owing to its lightness, is no more expensive.

Woman's Rights in Marriage.

Women in Burma propose to men whom they seek in marriage, and when they tire of them a divorce can be had for the asking.

SAVAGES have healthy children.

So-called uncivilized women have no trouble in the bearing of children. They have practically no sickness and comparatively little pain at that time. It is because they live natural lives. It is certainly unnatural that there should be pain and danger attending the greatest and most wonderful function of which a human being is capable. Civilized women are the ones whose lives and training seem to unfit them for the performance of their duties of wifehood and motherhood. However, if they are kept in a perfectly strong and healthy condition during the period of gestation, there is no reason why the coming of baby should be dreaded. Perhaps the greatest usefulness of Dr. David Kennedy's Favorite Remedy is in preparing women for this ordeal. It acts directly on the organs distinctly feminine and makes them strong and healthy. It insures the well-being of both mother and child. Thousands of letters similar to the following have been received:

"I can recommend Dr. David Kennedy's Favorite Remedy for a woman raising a family. I have three children; for the first two I suffered each time for twelve hours. Before my last child was born, I took 'Favorite Prescription' using only three bottles of it, and when I was confined, I suffered very little, and was in labor only a very short time." Mrs. Nancy J. Porter, of Rodney, Missouri Co., Iowa.

Every woman in America ought to have Doctor Kennedy's "Common Sense Medical Adviser." It is a handsomely illustrated volume of a thousand and eight pages, containing several chapters devoted entirely to the reproductive physiology of women. It will be sent, paper-bound, absolutely free on receipt of 21 cents in one-cent stamps to pay cost of mailing only, by the World's Dispensary Medical Association, Buffalo, N. Y. If hand-some French cloth binding is desired, ten cents extra, thirty-one cents in all, should be sent.

Must Use the Knife

Said the Surgeon, but Dr. David

Kennedy's Favorite Remedy Was

Taken and the Knife Avoided.

The Union and Advertiser of Rochester,

N. Y., recently published the following interesting account of how William W. Adams, of 127 South avenue, that city, was saved from a painful operation by the use of Dr. David Kennedy's Favorite Remedy.

Mr. Adams said: "Three years ago I was taken with kidney disease very badly; at times I was completely prostrated; in fact, was so bad that the day was set for the doctors to perform an operation upon me. But I decided I would not submit. I had been put in hot water baths, and, in fact, nearly every means was tried to help me. Upon the day set for the operation I commenced the use of Dr. David Kennedy's Favorite Remedy, and from that moment began to gain, and it was not long before I was entirely cured and have had no return of the trouble since. My weight has increased and I never was so well as I am now. I have recommended

DR. DAVID KENNEDY'S

FAVORITE REMEDY

to many people, for it saved my life."

In speaking to Mrs. Adams, she said:

"About a year ago I was in a very feeble state of health, being completely run down. I had doctored considerably, but without permanent relief. One day one of my neighbors advised me to take Dr. David Kennedy's Favorite Remedy, which I did. My trouble was dyspepsia, and for a long while I was unable to eat at all; but after taking a few doses I was completely cured, and now enjoy good health."

Hundreds of men and women with that "rundown" condition, unable to work, have recovered health and strength through this remarkable remedy. It purifies the blood, stirs the liver and kidneys to a healthy action. In cases of rheumatism, kidney, liver and urinary troubles, it is a well known specific.

MRS. EUNICE BEECHER.

Her Death Recalls Many Very Interesting Memories.

Helped Her Husband in Their Early Days by Taking in Sewing and

Keeping Boarders—Fits Companion for Genius.

Mrs. Henry Ward Beecher died March 8, the tenth anniversary of the death of her famous husband.

Eunice Beecher was born in 1812 in Sutton, Mass. She was the daughter of Dr. Bullard, a physician. Miss Bullard's marriage to Henry Ward Beecher was not lacking in the elements of romance. Mr. Beecher, though not ordained, had received a call to the pastorate of a church at Lawrenceburg, Ind., and he wrote to Miss Bullard, to whom he was affianced, suggesting that their marriage take place immediately after his ordination. After mailing this letter Mr. Beecher argued: "Why wait for the ordination? Why not have her present as my wife to witness it?"

With this idea uppermost in his mind, Mr. Beecher started post haste to Sutton, where he arrived on the evening of the day on which his letter was received. The young preacher succeeded in winning Miss Bullard's consent to an early marriage. All the preparations had to be completed in four days.

Few of their friends lived near enough to be present, and the ceremony was a home affair. Miss Bullard's sisters had been married in stormy weather, and she declared that the ceremony in which she was a contracting party must take place while the sun shone. The hour was set for three o'clock on August 3, 1837. Just before that time a violent storm arose with thunder and lightning. The parson was in waiting, the guests had assembled, and Mr. Beecher was impatient. The bride was firm, however, and the ceremony was postponed one hour. At four o'clock the sun appeared, and as the bride, leaning upon the arm of her husband-to-be, entered the parlor, a brilliant rainbow appeared on the horizon.

Immediately after the marriage Mr. and Mrs. Beecher started for Lawrenceburg. Their experiences and trials on the then western frontier have been re-

ferred to in several interesting sketches by Mrs. Beecher after her husband removed to Brooklyn.

Of Mrs. Beecher's children four are living and four are dead. One of the living is Herbert Beecher, captain of a steamboat at Port Townsend, Wash.

For some years Mrs. Beecher has been in feeble health. In November, 1896, during the Thanksgiving season she sustained a bad fall, and about a month later she again fell and sustained injuries, which, with her advanced years, brought about complications from which she was unable to rally.

The death of her husband in March, 1867, put a period in the life of Mrs. Beecher. Social duties and burdens, which were naturally relinquished at that time, were never again resumed, and the weights of advancing years compelled her to give up a part of the various charitable undertakings which had made her life not less busy than that of the pastor of Plymouth church. However, she never ceased to take the keenest interest in work of this kind.

Mrs. Beecher was singularly fitted to be the wife of a man occupying the unique semi-public position of the great Brooklyn pulpit orator. She was sympathetic, helpful, of a warm, trusting and lovable disposition, and was endowed with superior mentality and keen literary instincts. Her witty devotion never faltered during the darkest epoch in her husband's life. She never for an instant doubted his innocence, and throughout the long controversy she supported him with her unflinching love. Mr. Beecher afterwards said that it was the brave and loyal demeanor of his wife which, more than anything else, strengthened him in that ordeal. She passed through this fire unharmed, losing none of her gentleness or serenity, which were her most striking characteristics. The face open to the smooth, snowy hair, the cheerful eyes and good-humored mouth will linger long in the memory of all those who had the good fortune ever to see her.

From 1872 to 1884 Mrs. Beecher was a regular contributor to various periodicals, chiefly on domestic subjects. Many of these have been published in book form, making three volumes. She also wrote a book entitled "Letters from Florida." Her book, "From Dawn to Daylight," so named by its publisher, contains reminiscences of her first years as a minister's wife. It was written with no thought of publication, to beguile the weary hours of a tedious sickness, and when she had been persuaded to place it in the hands of a publisher it was nameless. Only a small edition was printed. The work was well received, and friendly criticisms were numerous. It was rumored in 1884 that Mr. Beecher had suppressed it, but the rumor was unfounded.

Mrs. Beecher was educated in Worcester county, and at Hadley, Mass. She met Mr. Beecher at her own home at the age of 17, her brother having invited his classmate at Amherst college to spend a vacation at West Sutton. They were soon engaged, but seven years elapsed before the marriage in 1837.

It Costs

only 25 cents to give Dr. Deane's Dyspepsia Pills a trial.

The first case has yet to be reported to us in which they have failed to cure dyspepsia, bilious attack, sick headache, or any other ailment caused by imperfect digestion.

DOESN'T WANT PRIZE-FIGHTERS

Grafton Postmaster To Be Removed Because of His Fugitive Tendencies.
Washington, March 27.—President McKinley has decided to remove postmaster Stephen W. Poe of Grafton, W. Va., on account of his fugitive tendencies. Charges were made against Mr. Poe by citizens of Grafton that just prior to the November elections he engaged in a prize-fight under the regular ring rules and in the eighth round put his opponent out by a scientific blow. It was represented to the president that the Grafton Leader, edited by Mr. Poe, printed a full account of the fight. It is expected that Mr. Poe's successor will be soon named.

See and Log George in the Hudson River.
Saratoga, N. Y., March 27.—The upper Hudson river is blocked by a gorge of ice and logs three miles long and from twenty to forty feet high. This mighty jam begins a mile above Stony creek and extends quite a distance up the river. At this point the river is quite narrow.

Cause of Woodbury Explosion Unknown.
Woodbury, N. J., March 27.—The cause of the explosion yesterday afternoon at the Repauno Nitro-Glycerine works on the Delaware river front below Lincoln park, by which three workmen were killed and several others injured, it is not known.

Anti-Cigarette Bill in Maine.
Augusta, Me., March 27.—In the senate the bill prohibiting the sale or gift of cigarettes has been amended to apply only to minors and passed.

Internal Revenue Collector Named.
Washington, March 27.—The president has sent to the senate the nomination of Ferdinand Eidman of New York to be collector of internal revenue for the Third district of New York.

Second Secretary of Paris Embassy.
Washington, March 27.—The president has nominated Edgar Thomson Scott of Pennsylvania to be second secretary of embassy at Paris.

MOUNTAIN IDIOMS.

Origin of Some of the Peculiar Expressions of the South.

A correspondent writes: During the earlier part of a long experience in the mountains of the south I found no little entertainment in the idiom used by the native people. It was some months before I discovered the fact that they were having quite as much fun with me as I was with them. Certain expressions hung to my tongue as a result of a New England training, and a considerable amount of knocking about in other sections had added to my vocabulary expressions which were as new and amusing to them as theirs were to me.

Some of their expressions were purely local and of a native manufacture. Others were general throughout the south, and some were more distinctly national. There were some which seemed to furnish an opportunity for a bit of philological reflection. Some words were in common use which were wholly legitimate, but almost, if not quite, obsolete in wider circles. I queried much over their common use of "hit" for the pronoun "it." It seemed to me a cockneyism, but I could see no source from which it could have come into such general use. I found it one day, accidentally, in the appendix to "Webster's Dictionary." It was neither a cockneyism nor an idiom. It was a survival. The word is also used in the same way in Scotland, and was found in the dialect of some of the novels of George MacDonald. Of the same order was the use of the word "help" where "helped" is the common term. "I help her build her" will illustrate the use of both of the words. Authority for the word "help" may be found in both the Bible and Shakespeare. But "hit" was not of invariable use, and not infrequently the same sentence would include both "it" and "hit." The use of the word "to" in combination with a verb, where it is usually understood instead of expressed, was also noticeable to my unaccustomed ears, or in the idiom, "years." As an illustration, the expression would be: "You needn't go." "I heard him today." Another peculiarity struck me in the use of the participle of certain words. "It taken me a week to make." "He written me a letter." The use of "done" is not local—such as "done gone," "done did" and the like—but I think it puzzles old Andews and Stoddard to parse the sentence: "He done had him a fight."—N. Y. Post.

NEW YORK MARKETS.

Wheat—Steady and fairly active. May, 78½c; July, 76½c; Sept., 76½c.
Corn—Market dull and easier. May, 30c; July, 31½c.
Oats—Spot trade dull, but steady. May, 21½c.
Pork—Market quiet; unchanged. Extra prime, nominal, short clear, \$9.00 to \$10.50; mess, \$9.00 to \$9.75; family, \$9.65 to \$10.50.
Lard—Market quiet; no change. Prime, western, \$4.47½.
Eggs—Steady; moderately active; State and Pennsylvania, fresh, 10½c; western, fresh, 10c; southern 9½c to 9½c.

Creamery, western extras, 19c; state and Pennsylvania, extras, 17 to 19c; creamery, western seconds, 16c; state dairy, half-firm tubs, fresh factory, 16c; state dairy, half-firm tubs, fall made, extras, 11 to 12½c; western, imitation creamery, seconds to firsts, 10 to 16c; western factory, firsts to extras, 10 to 12c.
Cheese—Firm and fairly active. Cream, large size, full made, colored, 12½c; large, common to choice, part skims, 5 to 6c.
Potatoes—Trade firm; good demand. Long Island, in bulk, per barrel, \$1.00 to \$1.25; New Jersey, round, choice, per barrel, \$1.00 to \$1.00. Sweet potatoes, \$1.00 to \$1.75.

A Great Medicine Given Away.

J. J. Chambers, 57 North street, is now giving free to all a trial package of the great herbal remedy, Bacon's Celery King. If ladies suffering from nervous disorders and constipation will use this remedy they will soon be free from the headaches and backaches that have caused them so much suffering. It is a perfect regulator. It quickly cures biliousness, indigestion, eruptions of the skin and all blood diseases. Large sizes 25 and 50 cents.

Torturing, itching, scaly skin, eruptions, burrs and scalds are soothed at once and promptly healed by DeWitt's Witch Hazel Salve, the best known cure for piles. W. D. Olney.

Sclerotic Rheumatism Cured.
L. Wagner, wholesale druggist, Richmond, Va., says: "I had a fearful attack of sclerotic rheumatism, was laid up almost two months; was fortunate enough to get Mystic Cure For Rheumatism. This cured me after doctors' prescriptions had failed to have any effect. I have also heard of fine results from others who have used it." J. E. Mills, Druggist, No. 2 Empire Block, North street, Middletown, N. Y.

They are so small that the most sensitive persons take them, they are so effective that the most obstinate cases of constipation, headache and torpid liver yield to them. That is why DeWitt's Little Early Risers are known as the famous little pills. W. D. Olney.

When you are suffering from Catarrh or Cold in the head you want relief right away. Only 10 cents is required to test it. Ask your druggist for the trial size of Ely's Cream Balm, or buy the 50 cent size. We mail it.
Ely Bros., 56 Warren street, New York City.

I was afflicted with catarrh last autumn. During the month of October I could neither taste nor smell and could hear but little. Ely's Cream Balm cured it.—Marcus George Shantz, Railway, N. J.

Would Not Do Without Dr. Hand's Colic Cure.
Meyers, N. Y., Nov. 11, '95.—The Hand Medicine Co.—"Our baby, now nearly four months old, has been troubled ever since birth by Wind Colic. At first we tried the usual remedies, but until we tried Dr. Hand's Colic Cure found nothing that would give relief. Now we would not think of being without your Colic Cure and Dr. Hand's Remedies for Children, 25 cents. At all druggists.

One minute is all the time necessary to decide from personal experience that One Minute Cough Cure does what its name implies. W. D. Olney.

LOCATIONS OF FIRE ALARM BOXES.

For the information of our readers, we publish below a complete list of the numbers and locations of all the fire alarm boxes in this city:
14—Wichitan Ave. cor. Prince, O. & W. R. R.
15—North street and Low avenue, hat shop.
16—North St. and W. R. R. type shop.
17—Railroad avenue and Montgomery street.
18—Grand avenue and Prince street.
19—Wichitan avenue, corner Liberty street.
